

## Texas Competitive Power Advocates (TCPA)

### Who We Are:

- TCPA is a trade association representing power generators, wholesale power marketers and retail providers with business in the Texas and ERCOT wholesale and retail electric markets.
- TCPA is dedicated to supporting and promoting competitive wholesale and retail markets that ensure ample, reliable and affordable electricity to Texas consumers.
- TCPA hopes to maintain mutually beneficial and substantive communications with legislators, PUC Commissioners, staff and other market participants on issues affecting competition in Texas' electric markets.
- TCPA members have made substantial business investments in Texas because of both national and state deregulation of energy markets—from PURPA to wholesale deregulation to retail deregulation in SB 7.

### TCPA Members:

- Provide 38,480 MWs of installed capacity to the ERCOT/Texas Markets – over 50% of the total net operable electric generating capacity in ERCOT, enough to power over 38 million homes.
- Employ over 5,302 Texans.
- Represent over sixteen (16) billion dollars of investment in the state.
- Provide a combined 185 years of experience in the Texas market.
- Perform, through their affiliates, a wide range of market and customer functions in ERCOT as generators, qualified scheduling entities, wholesale electric providers, energy management service providers and retail electric providers. TCPA members are active at the Board, Committee and Subcommittee levels at ERCOT.

### TCPA Members Include:

Calpine Energy Services, LP  
Constellation Energy Commodities Group  
Coral Power, LLC  
Cottonwood Energy, LP  
Deutsche Bank AG New York  
Exelon Generation (Power Team)  
FPL Energy, LLC  
Goldman Sachs & Co.

Gregory Power Partners, LP  
International Power America  
LS Power Associates, L.P.  
NRG Texas LLC  
PSEG Global LLC  
SUEZ Energy Marketing NA, Inc.  
Topaz Power Management, LP
